## Greece Cyclades Islands Bike Barge Tours – Santorini, Greece September 16 – 27, 2022 \$4,845 \*

**The Cyclades Islands:** are comprised of more than 30 islands, and were the cradle of the first European civilized society 5,000 years ago. It is also here that Greece shows its most pure side in all its variety: Gleaming white cubic houses with blue shutters and maze like lanes give a unique visual to these island towns.

The rugged coastlines show impressive geological formations, turquoise-blue sea, and fantastic sandy beaches. Experience the fascinating mixture between antiquity and modern times on your motorized sailing ship or on your bike and absorb the beauty of the central archipelago of the Greek Aegean.

**Santorini** is a gorgeous must see bucket list destination in Greece, and part of the Cycladic island group in the Aegean Sea. From its glorious sunsets and staggering multicolored cliffs to whitewashed buildings, Santorini is definitely blessed with a unique landscape. Its beauty makes it one of the top spots to visit in all of Greece, but so does its delicious Greek food restaurants! It is also known for its picturesque clifftop towns (Fira, Oia, and Imerovigli), all of which offer spectacular views over the caldera: the crater created after a 16th-century BC volcanic eruption.
